

NCOA^{Link} End User Certification Procedures

NCOA^{Link} End User Licensees:

An End User is a licensee that uses the NCOA^{Link} Product to update mailing lists for its own mailings. The End User may not update mailing lists for third parties. NCOA^{Link} datasets for an 18-month period will be provided monthly to these Licensees. Applicants to become End User Licensees must satisfy the application requirements prior to being eligible to enter into an NCOA^{Link} License Agreement with USPS.

A certification package must be completed for each individual site seeking to provide NCOA^{Link} processing.

Full requirements are set forth in the USPS NCOA^{Link} License Agreements and related documents. In the event of a conflict between this document and the standard NCOA^{Link} License Agreement, the terms of the NCOA^{Link} License Agreement prevail.

The following material describes the necessary steps of the certification process to qualify for a license to the NCOA^{Link} Product. Information necessary to complete all steps of the certification process is included. Applicants may work on all steps simultaneously if they desire to do so.

Applicants must submit all materials to USPS at:

MOVE UPDATE SUPPORT DEPARTMENT (NCOA^{Link})
NATIONAL CUSTOMER SUPPORT CENTER
UNITED STATES POSTAL SERVICE
6060 PRIMACY PKWY STE 201
MEMPHIS TN 38188-0001

Step 1. Application and Self-Certification Statement Approval

The following documentation must be completed and submitted by Applicant and approved by the USPS:

- Application
- Confidentiality Statement
- Self-Certification Statement
- Key Personnel Listing
- Web Access Request Form
- Security Documentation

USPS will notify Applicant if it determines that Applicant has completed Step 1 to the satisfaction of USPS.

Step 2. Software Acquisition

Upon satisfaction of Step 1 requirements, USPS will provide applicant with an authorization code necessary to obtain NCOA^{Link} software. Applicant may either purchase software certified by USPS (authorization code required) from an NCOA^{Link} software distributor that has entered into a license agreement with USPS, or develop software for use in the Applicant's processing environment.

If Applicant elects to purchase software, Applicant may proceed to Step 3 upon acquisition of software.

If Applicant elects to develop interface software, the applicant must enter into an NCOA^{Link} Software Developer License Agreement. Under this separate license agreement, Applicant must develop interface software and apply for USPS certification prior to using that software.

After Applicant obtains USPS certified NCOA^{Link} software, through purchase or development, Applicant may proceed to Step 3.

Step 3. NCOA^{Link} Testing & Certification

Applicant must submit to USPS a written request and a Software Product Information Form requesting that USPS perform an NCOA^{Link} certification test. The USPS will notify Applicant when it has sent a test file. (While NCOA^{Link} testing will usually occur remotely, USPS reserves the right to perform testing on-site.)

The following items are tested in Step 3:

- Ability to correctly process test files
- Ability to provide new addresses in accordance with NCOA^{Link} Product requirements
- Ability to produce output file with appended flags
- Understanding and performance of administrative requirements which includes processing the certification test and submitting the proper paper work and/or reports.

If USPS determines that Applicant fails the initial certification test, Applicant may submit to USPS a written request for an additional certification test. USPS will require payment of \$1,000.00 for each additional certification test.

Step 4. Execution of License Agreement

Upon USPS determining that Applicant has successfully completed of Steps 1 – 3, USPS will issue a certification notice and send a prorated fee chart and a standard NCOA^{Link} License Agreement to Applicant. **The NCOA^{Link} License Agreement must be signed by an officer who possesses the necessary legal authority to sign on behalf of the company, firm, or organization.** Applicant must then return the original signed standard License Agreement to the USPS. After USPS receives the original signed license agreement and completes its review and approval, USPS will sign the License Agreement and forward a copy of the fully executed License Agreement to Applicant, along with an invoice for the initial pro-rated licensing fee. The initial licensing fee is due within ten (10) calendar days of receipt of the executed license agreement to the USPS.

Once the USPS received the initial licensing fee, the USPS will Express Mail[®] the NCOA^{Link} DVD-ROM set containing the live NCOA^{Link} datasets.

NOTE: Applicants that elect to develop their own NCOA^{Link} software and/or obtain multiple licenses for commercial use (processing, sell and/or distribution) may complete Steps 2 and 3 simultaneously.

If you have any questions regarding the certification and licensing procedures, please contact the Move Update Support Department at 800-589-5766.
